SEIZURE OF STOLEN PROPERTY.-Yesterday the house of ---- Robinson, one of the gang of nivates and thieves who infest the lake cities, was searched and a quantity of clothing, &c., found, which is supposed to have been stolen in Detrolt. Robinson and Miller, a fellow comrade in his dark deeds, have been arrested at Detroit.

CONCERT.-The Concert of the Gesang Verein last evening, at the Melodeon, was largely attended and well performed. This musical society takes a high standard, and executes some difficult passages with great precision and power.

From our statement yesterday morning in egard to the death of Mrs. Risk upon Chestnu freet, we stated that a whisky bottle was found is her room. From this it would be inferred that she was in the habit of drinking. We learn from hose acquainted with her, and who saw her daily, that she had never been known to drink, and that the liquor must have been there for some other purpose than for drinking.

MELODEON.—George Vandenholf, Esq., the cloquence of whose voice in readings from the poets has so delighted the citizens of Buafflo and other cities, will this evening give "An evening with the poets," with readings from Shakspeare, Scott, Byron, Hood, Longfellow, and others. That this will be an unusual treat, none can doubt. The wide spread fame of Mr. Vandenholf, and that of his illustrious sire, will be enough to insure a full house. At Buffalo, for four nights, hundreds were nightly turned away, being unable to get inside the doors of the immense St. James' Hall. We shall be favored with but one evening for which we are sorry, but that will be an evening of enjoyment, for which we are glad.

The expedition was a highly successful one, and the results are of an important character He ascended the river in a steamboat five hund red miles, and considers the navigation practica ble for that distance for steamers of light draught. It is thought that the opening of this river will develope an economical avenue of transportation to large portions of New Mexico, California and Utah. After a hydrographic survey, an examina-tion was made of the previous unknown region along the 36th parallel, which is traversed by the Upper Colorado and its tributary, and the country was found to possess such novel and remarkable features as to ronder the explorations of the high-

UTAH AND THE MORMONS. There is little doubt if any that a law will be passed during the ensuing session of Congress, extending the pre-emption laws to Utah. At present no estitler in the Territory has a legal title to his land. These sales are progressing, and already two millions of acres are ready for the market. From what is said in military quarters, it is probable that a strong force will continue to be kept in Utah. Though the Mormons are quiet at present, they are not resigned to the circustances which surround them.
